About Me

I'm currently studying at HUCE with two years experience about software development. In those two years, I learned and built a tech stack for myself such as JavaScript, React JS, NodeJs, MongoDB, Java. In addition, I extended more knowledge about database, software, data architecture.

Career Target

Continuously learn and cultivate programming knowledge to develop more professional skills.

Next year, I'm going to become a Full-Stack Developer.

Furthermore, I would like to work in a professional environment with sociable colleagues.

Technical Skills

- HTML, CSS, Bootstrap
- JavaScript, Java, Php
- ReactJs
- NodeJs
- SQL Server, MySQL, MongoDB
- Linux
- Github

Work Experience

Web Developer - Febuary 2024 - April 2024
- Develop an online story reading platform from scratch using ReactJS for the frontend, NodeJS for the backend, RESTfull API, and MongoDB for the database.

- Design and construct functionalities: reading stories, searching for stories, posting stories, overseeing stories, logging in, registering.

Education

Hanoi University of Civil Engineering (HUCE)
Software Engineer
October 2020 - June 2024
